

Important CPT® Changes for 2009

The 2009 coding year will be filled with many changes occurring in the CPT® code set. With over 500 new, revised or deleted codes it is important to make sure your customer is using the most current code book to be in compliance. Sections that will endure the biggest impact include Medicine and Category II. Our top product to help customers understand the upcoming changes is our 2009 Current Procedural Coding Expert series. Our new editions have been updated with valuable, customer recommended new features that are in an easy-to-navigate logical format.
